

Street Talk: How do you feel about privatization?

"I think privatization is a very practical answer that DoD has on how to provide millions of dollars for renovations for family housing units, with a budget that otherwise wouldn't be able to afford it."

Col. Drew Jeter
1st Mission Support Group
Commander

"It's a nice benefit the way we have it now to not have any expenses. However, I feel the maintenance could be better. If we do privatize, I believe the maintenance aspect will be the benefit."

Staff Sgt. Donald Zehner
10th Intelligence Squadron

"If it is not going to cost the residents any additional money and maintenance will be as good or better, I think it is a good idea."

Luz Martin
Wife of Master Sgt. Scott
Martin

"I think it will be good, providing services are done in a timely manner and the contractor lives up to what they are promising the government. It will be a significant improvement to what we have now."

Chief Master Sgt. Garry Pratt
Air Combat Command
Maintenance and Logistics
Division

"It seems like a good idea as long as there aren't any discrepancies with paying utilities. Also, the renovations will benefit us."

Senior Airman Crystal Ayirebl
1st Medical Operations
Squadron
